### 3. SALIENT REQUIREMENTS AND/OR PRINCIPLES RELATING TO CORPORATE ACTION TIMETABLES

Set out below are the salient requirements and/or principles applicable to all **Corporate Actions** undertaken by an **Issuer**:

- 3.1. **Corporate Action** timetables should be prepared and **Announced** on a **Business Day** and all action dates of a **Corporate Action** and/or event must fall on a **Business Day**;
- 3.2. **Issuers** must **Announce**
  - 3.2.1. the **Declaration Data** on the **Declaration Date**. Unless permitted otherwise by 4AX, the **Declaration Date** must be a date which is on or before the date on which the circular and/or notice relating to the specific **Corporate Action** is distributed to the **Issuer's Security Holders**;
  - 3.2.2. the **Finalisation Data** on the **Finalisation Date**. A **Corporate Action** may no longer remain conditional in any respect after the **Finalisation Date**. The **Finalisation Data** should therefore include confirmation by the **Issuer** that all outstanding conditions precedent have been fulfilled and/or waived (to the extent that those conditions precedent are capable for being waived). Should a **Corporate Action** not be subject to any conditions precedent, an **Issuer** may include the **Declaration Data** and **Finalisation Data** in one **Announcement**, which **Announcement** must be published on the **Declaration Date**;

- 3.3. Unless permitted otherwise by 4AX, a **Corporate Action** will have to be re-Announced by an **Issuer** should any amendments be made to the salient terms/mechanics of a **Corporate Action** by an **Issuer** between the **Declaration Date** and the **Finalisation Date**;
- 3.4. **Corporate Actions** resulting in the suspension and/or removal of a **Security** from the **Official List** must always take effect from the commencement of business on a specific **Business Day**;
- 3.5. **Ratios or Rates** of entitlement or cash payments resulting from a **Corporate Action** must be reflected to a maximum of 5 (five) decimal places. With regards to cash payments, same must be **Announced** in a denomination of South African cents;
- 3.6. to the extent that any fractional entitlements (in relation to **Securities**) arise as a result of a **Corporate Action**, all allocations of **Securities** will be rounded down to the nearest whole number resulting in allocations of whole securities and a cash payment for the remaining fraction. The cash value must be determined by using the weighted average traded price for RD - 2 less 10%. An Issuer must publish an announcement by 11h00 on RD - 1 notifying the market of cash value.
- 3.7. **Corporate Actions** requiring an election to be made by **Security Holders** must include the deadline by when such elections are to be received by an **Issuer** from its **Security Holders**. To the extent that elections are not received by the **Issuer** by the **Election Date**, the **Default Election** will apply. In addition, **Issuers** will also be required to **Announce** that a **Default Election** would apply to the extent that elections are not received by an **Election Date** and what the **Default Election** would be (e.g. either being cash or **Securities**);
- 3.8. **Security Holders** may vote in the following way regarding **Corporate Actions** requiring **Security Holder** approval:
- online using the 4AX Registry Portal; or
  - by proxy by completing and returning the form of proxy attached to the notice of meeting in accordance with the instructions contained therein; or
  - by attending the relevant meeting in person.

**Corporate Actions** requiring **Security Holder** approval and conducted by way of written resolutions must be dealt with in accordance with the provisions of the **Companies Act**.

- 3.9. Where a **Corporate Action** is subject to any restrictions (specifically in relation to foreign **Security Holders** and jurisdictions), the restrictions to which the **Corporate Action** is subject to must be set out in the **Declaration Announcement**.
- 3.10. The Corporate Action Timetables set out minimum timelines and longer timelines may be allowed subject to prior consultation with and approval by the Head of the Issuer Regulation Division and any other relevant stakeholders.
4. **BROAD CLASSIFICATION OF CORPORATE ACTION TIMELINES**
- 4.1. **Corporate Actions** can be broadly classified as follows:
- 4.1.1. “**Mandatory Events**” which affect all shareholders e.g. a dividend payment or a meeting of **Security Holders**;
- 4.1.2. “**Mandatory with Options Events**” which require an Election by each **Security Holder** as to how they wish to participate in the event. Typically, each **Security Holder** is presented with two or more **Corporate Action** elections of which one must be specifically elected by the **Election Date** e.g. cash, **Securities** or a combination of both **Securities** and cash. If no Election is made by the **Security Holder** by the **Election Date**, the **Default Election** will be

applied; and
